## Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1,3,5,6,8,10-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Crespo et al (5,173,923).

Crespo et sl discloses a CDMA spread spectrum communication system in which a plurality of unique PN code are assigned to each transmitter (a codebook can have *one* or more PN codes) and the information signals are spread and despread using the assigned unique PN codes. (See abstract and col.2, lines 13-54)

#### Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

### Response to Arguments

6. Applicant's arguments filed 6/10/99 have been fully considered but they are not persuasive. In response to applicant's argument page 3, since a codebook can having one or more of PN codes and claim 1 as claimed now does not claim a codebook having a plurality of PN codes, the prior art U.S. patent No.5,173,923 does anticipate claims 1,3,5,6,8,10-11.
